Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Claims 13-21 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected group, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 5.

Applicant's election of Group I in Paper No. 5 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Applicant failed to elect a single species in Paper No.5, in response to Examiner's species requirement of August 27, 2002. Examiner phoned Applicant and requested an election of a single species. Applicant thus elected Species A, Figures 1-8.

Examiner further withdraws claims 7-12 as being drawn to the nonelected species of Species B, Figures 9-10. The embodiment of Species B comprises a support frame member (Page 8, Lines 15-21). Claims 7-12 are drawn to the embodiment with a support frame member.

Drawings

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference characters "4" and "6" have both been used to designate a collar. A proposed drawing correction or corrected drawings are required in reply to the Office

action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character "30" has been used to designate both hooks and end. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character "32" has been used to designate hooks, shoulder, and tips. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 5, and 6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "the end of said neck" in Line 5. There is insufficient antecedent basis for this limitation in the claim.

Claim 1 recites the limitation "the center of said collar" in Line 8. There is insufficient antecedent basis for this limitation in the claim.

Claim 5 recites the limitation "the interior of said housing" in Line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim 6 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01. The omitted structural cooperative relationships are: Applicant recites, "said neck member comprises a flexible upright extending..." Examiner does not understand what structure is "upright." Examiner interprets upright as being an adjective that describes the position of an element. However, Applicant does not claim anything with structure that is upright.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Hollister (5,649,622). Hollister discloses a safety device (2) usable with a vial, said vial having mounted to one of its ends a hub (12) from which a needle (14) extends, said safety device comprising a collar, a neck member, a housing (6), and a latch member; said

housing comprising a slot wherethrough said needle passes and at least one locking means (Column 4, Lines 18-29); said locking means comprising a hook (Figure 1).
